HTML . CSS . Javascript(ES6) . React . React Native* . Redux* .

Webpack . Babel . Git

Projects

Facebook Clone

Demo: <http://bit.ly/facebook-81> Github: <http://bit.ly/fb-github>

Implementation of facebook web in react, with google auth and dashboard, where users can share posts in real time with others.

Instagram Clone

Demo: <http://bit.ly/insta-81> Github: <http://bit.ly/insta-github>

A minimal looking instagram clone, which i implement in react. A web app has auth features with a good looking UI.

Github Finder

Demo: <http://bit.ly/fecher>

A single page web app with a good looking UI to fetch user profile data through github API.
